2010	27,437 (+18.60%)	35,643 (+28.54%)						

Note:

1. The definition and collection time for SMS statistics are as follows:
  - a. Short message service refers to the origination or termination of messages containing alphanumeric characters, sound, images etc. by the mobile service customers with their handsets, PDA, computer and any other terminals.
  - b. The start time for collecting the statistics is ONE HOUR prior to 00:00 hour of the "Special Date" and the end time is on 00:00 hour on next day of the "Special Date", i.e. the statistics are for the number of messages sent or received over a period of 25 hours.
2. The figure in bracket shows the percentage increase or decrease as compared with the corresponding statistics in the previous year
3. Dates for Chinese New Year Day:
  - Year 2006: 29 January
  - Year 2007: 18 February
  - Year 2008: 7 February
  - Year 2009: 26 January
  - Year 2010: 14 February
