

How to Keep Yourself Informed of the Most Up-To-Date Technical Specifications Issued by OFTA

Introduction

From time to time, OFTA consults with the industry on various telecommunications standardisation issues and issues new technical specifications (i.e. HKTA xxxx) to facilitate network interconnection among operators or service provisioning to customers. Besides, technical specifications will also be updated from time to time to reflect changes in regulatory and technical requirements, equipment certification requirement, or to include editorial amendments etc. In general, all new and updated technical documents and specifications are posted onto OFTA's homepage (<http://www.ofta.gov.hk>) for implementation by the licensees concerned or reference by interested parties.

Email Notification Service

2. Under the existing arrangement, any licensees or interested parties who want to receive notification on the issue of new/updated technical specifications by the TA may subscribe to OFTA's e-mailing list of "What's New". Notification will then be automatically sent to each subscribed licensee or party whenever there is new information published under OFTA's "What's New" web page.

3. OFTA would encourage licensees to subscribe to this e-mail notification service if they want to keep informed of OFTA's most up-to-date release of technical specifications.

4. It should be noted that OFTA's e-mail notification service merely serves as an ancillary means to help licensees fulfill their obligations by keeping them informed of the latest release of technical specifications.

How to subscribe to OFTA's e-mailing list?

5. Subscription to OFTA's e-mailing list can be made online at https://www.ofta.gov.hk/en/enq_help/subscribe.asp of OFTA's homepage.

How to obtain additional information?

6. Additional information may be obtained from:

Senior Telecommunications Engineer,
Standards Section,
Office of the Telecommunications Authority,
29/F, Wu Chung House,
213 Queen's Road East,
Wanchai,
Hong Kong.
